How To Use The Magic Moon Tracker

MOON Tracker

Add the Month/s of your lunar phase here:
example Feb-March'17 and anything else
you would like to add or track.

Each lunar phase begins on the New Moon
and follows the circle in a clockwise manner
around the wheel.

Write your New Moon Intention/s for the lunar phase
here in the center of your Magic Moon Tracker.

These "wedged" areas of your chart can be used
for various things. They can be used to write in.
Add colour/s to gauge your energy levels or
anything else you would like to keep track of.
You can add or use symbols. Anything goes!
Use your imagination and see what
resonates and works best for you :)

In these smaller blank spaces
you can add things like the
dates, zodiac signs, menstrual
cycle (if applicable) or anything
else you'd like to track.

Use these lines to add your own
notes and observations.

Zodiac sign chart for use as
reference to track their
journey through the
lunar phases.
